10. Name Allocation Mechanisms

10.1 We have initially identified the following domain name allocation mechanisms: First-Come, First Served; Auction; Request for Proposal; and Dominion Registries Designated. We may, at Our sole discretion, determine the most prudent means to allocate any domain name.

a. First-Come, First-Served (FCFS) - The domain name is awarded to the first eligible applicant provided the request has been made through a registrar and the applicant and domain name comply with this Registration Policy. The acceptance of any registration fees does not in itself constitute a domain name registration. A domain name is only registered upon approval of Dominion Registries of any request for registration.

b. Auction - Multiple requests to register an available domain name will be resolved through an auction. We will conduct auctions in accordance with rules and policies that will be available at Domains.AUTOS.

c. Request for Proposal (RFP) – We will accept proposals from applicants for an available domain name. We reserve the right to impose a reasonable cost-recovery fee on any applicant that chooses to participate in any RFP. We are not bound to select a winner among RFP respondents, and can hold the domain name for future allocation pursuant to an Auction or other allocation mechanism. The rules and procedures for any RFP will be posted at Domains.AUTOS.

d. Dominion Registries Designated – We are permitted under the Registry Agreement to activate a limited number of names necessary for the operation or the promotion of .AUTOS TLD.

11. Indemnification

To the maximum extent permitted by applicable law, You shall fully defend, indemnify and hold harmless Dominion Registries, and any entity designated by Dominion Registries to perform registry operations for the .AUTOS registry, including any persons or entities assisting Dominion Registries with domain name registration eligibility determinations, their subsidiaries and affiliates, and the directors, officers, employees, representatives and agents of each of them, from and against any and all claims, damages, liabilities, costs and expenses, including reasonable legal fees and expenses, arising out of or relating to Your .AUTOS domain name registration. This indemnification obligation shall survive the termination or expiration of this agreement, and You acknowledge that any registry services provider for Dominion Registries is an intended beneficiary of this agreement.

12. Policy Modifications

We reserve the right to modify this Registration Policy at any time. Unless this version of the Registration Policy has already been invoked by the submission of a complaint or dispute under this Policy, in which event the version of this Policy in effect at the time it was invoked will apply to you until the dispute is over, all such changes will be binding upon You with respect to any domain name registration dispute, whether the dispute arose before, on or after the effective date of Our change.

In the event that You object to a change in this version of the Registration Policy, Your sole remedy is to cancel Your .AUTOS domain name registration, provided that You will not be entitled to a refund of any registry fees. The revised Registration Policy will apply to You until You cancel Your domain name registration. The latest update of these registration policies will be found at Domains.AUTOS.
